Xitron Announces Dynagram's inpO2 Imposition Software Now Available at TheRIPStore.com

Scalable Imposition Solution, integrated into Xitron Navigator Workflow solutions

Ann Arbor, Michigan and Quebec, Canada – July 13, 2009 – Xitron, the prepress industry's leading independent developer and integrator of Raster Image Processors, RIP management software and workflow solutions today announced the availability of Dynagram's inpO2 family of imposition solutions at Xitron's online web store, TheRIPStore.com. These new offerings will also be shown at PRINT 09 in Chicago, September 11-16, 2009 in Xitron's booth 6943 and Dynagram's booth 6651.

inpO2 offers:

- Integration with Xitron Navigator workflow solutions
- Scalability as needs change
- Familiarity of Acrobat
- Imposition flexibility
- Support for any type of press or printing device
- Export of fat PDF files or JDF layouts

"inpO2 offers Navigator workflow users increased functionality and flexibility with the direct integration to our workflow," stated Mark Eisenschenk, Xitron's President and Chief Executive Officer. "Dynagram has been an excellent development partner with a wide array of solutions that fit the needs of our customers and prospects."

Navigator workflow solutions are expanding the functionality of industry renowned Navigator RIP by providing all the features required of a busy prepress department. Xitron's Navigator *Elite* workflow includes inpO2 Basic as a standard component of the workflow while optional modules are available to meet the specific requirements of the printer's jobs.

“We’re pleased that Xitron has chosen inpO2 as their imposition standard for Navigator workflows,” said Francois Guerard, CEO of Dynagram. “Navigator is one of the most popular prepress workflow solutions on the market and inpO2 is a perfect fit for their customers” continues Mr. Guerard.

Xitron users will select between the full-featured inpO2 Basic, Professional or Complete. inpO2 is a powerful and modular PDF imposition software, built right into the familiar environment of Acrobat 8/9. inpO2 provides all the functions and features for contemporary printers deploying end-to-end PDF workflows.

inpO2 is offered in five modules: Wizard, Layout Editor, Assembly Planner, Optimization and JDF Export. The Wizard is the base module. The Layout Editor license adds the complete light table and tools, a prerequisite for other optional modules. All modules can be purchased separately or in packages for best economy.

Xitron offers the Dynagram solutions through its online web store, TheRIPStore.com as well as through its extensive network of prepress dealers and distributions around the world. Xitron RIPs and workflow solutions drive more than 250 different output devices ranging from black and white and color proofers to film imagesetters and the latest in CTP and direct-to-press systems. With shipments of more than 20,000 RIPs, Xitron is the largest independent provider of RIPs in the market. For more information about Xitron products, visit Xitron on the web at www.xitron.com.

About Xitron

Xitron, the software and interface group of Vanguard Graphics International develops flexible workflow systems and interfaces designed to drive the prepress industry’s most popular new and legacy output devices. This prolongs and protects our customers’ investments. Xitron’s Navigator RIP, Raster Blaster TIFF Catcher, and Xenith Workflow solutions are recognized as pre-press standards. Built around core technology from Global Graphics and Adobe Systems, Xitron engineers continue to develop stable, yet flexible solutions for the graphic arts market, driving over 250 different models of imagesetters, proofers, platesetters, and digital presses. With shipments of more than 20,000 RIPs, Xitron is the largest independent provider in the market. For more information about Xitron, visit us at www.xitron.com.

About Dynagram

Dynagram was founded in 1994 and is the technology powerhouse behind a wide choice of open imposition solutions for commercial printers of all sizes. Dynagram products are sold worldwide through a network of graphic arts resellers and are bundled with select RIPs and workflow solutions for a variety of printing markets. Dynagram has offices in San Diego, CA and Quebec City, Quebec. For more information on Dynagram, our products or our partners, please visit our web site at www.dynagram.com.
